

CONTENT

J. Blažek

Climatic demands of apple cultivars according to their evaluation by growers in CZ..... 15

A. Matějčíček, F. Paprštejn

Sensory evaluation of pear cultivar 'Lucasova' stored with apples in ULO atmosphere 29

F. Paprštejn, J. Sedlák, V. Svobodová,

J. Polák, S. Gadiou, P. Zeman

Elimination of viruses from fruit woody species and long term observation of health status..... 35

H. Drahošová, J. Blažková, I. Hlušíčková

Using of foliar fertilising in sweet cherry orchards..... 45

J. Kloutvorová, L. Kněžáček, J. Kupková, J. Náměstek

Evaluation of efficacy of some biocontrol agents against fungal diseases on apples..... 61

J. Kosina

Chemical thinning of pears (preliminary results)..... 71

J. Náměstek, M. Pražák, T. Litschmann,

L. Kněžáček, S. Prosa

Effect of drip irrigation with fertigation on pear crops..... 79

M. Lánský, J. Kloutvorová, L. Kněžáček,

V. Nečasný, J. Urbanová, J. Hajšlová

Effect of surfactants and foliar fertilisers on residue degradation of some selected fungicides 89

H. Drahošová, J. Blažková, I. Hlušíčková

Evaluation of cherry fruit cracking..... 101

J. Blažek, I. Pištěková

Results from fruit evaluation after long-time storing of new plum cultivars..... 115

H. Ludvíková, J. Suchá, L. Křivohlávková, W. Jelkmann

Diagnostics of Little cherry disease (LChD)..... 129

J. Korba, J. Šillerová, F. Paprštejn, J. Sedlák Selection of virulent bacterial strains of <i>Erwinia amylovora</i> for artificial inoculation of fire blight on pome fruit	135
J. Kosina Growth and yield of three plum cultivars on selected rootstocks	143
J. Sedlák, F. Paprštejn Micropropagation of sweet cherry cultivars	151
J. Sedlák, F. Paprštejn Verifying of phenotypic stability of pome fruit plants after sanitation procedure	159
J. Kloutvorová, J. Urbanová, L. Kněžáček, J. Hajšlová Monitoring of pesticide residues in strawberry in model regimes of treatments in 2009	167
J. Ouředníčková, L. Kněžáček, I. Silovská Control of blackcurrant against the black currant gall mite <i>Cecidophyopsis ribis</i> (Westwood, 1896)	173
J. Sedlák, F. Paprštejn Elimination of blackcurrant gall mite from planting material by non chemical treatment	187
J. Sedlák, F. Paprštejn, J. Špak, J. Příbylová, L. Svobodová Sanitation of currant cultivars	195
I. Pištěková, S. Boček, L. Odstrčilová, P. Salaš, H. Sasková Influence of biological antifungal products Supresivit and Polyversum on harvest and health condition of organic strawberries	203
J. Ouředníčková Efficacy of some selected products against the strawberry blossom weevil (<i>Anthonomus rubi</i> , Herbst, 1795)	213
J. Kosina, M. Baudyšová Propagation of less known fruit crops by cuttings	223
J. Sedlák, F. Paprštejn Sterilization of initial explants and multiplication of apple rose in <i>in vitro</i> culture conditions	231

A. Matějček, J. Kaplan	
Comparison of sensoric parameters of seventeen elderberry cultivars	237
M. Vespalcová, H. Grulichová, A. Matějček, J. Kaplan	
Elderberry as a source of important flavonoid rutin	243
J Blažek, J. Křelinová	
Selected characteristics of columnar apple cultivars bred in RBIP at Holovously.....	253
J. Blažek	
‘Herald’ - a new apple cultivar of columnar tree growth habit with resistance to diseases.....	267
J. Blažek	
Apple cultivar ‘James Grieve Super Compact’	271
J. Blažek	
New dwarf apple cultivar ‘Cumulus’ with resistance to scab	275
Bibliography (2009-2010)	279
